

Conservation of Mangrove through Rice Hull Fed Wine Distillery - Nipa Wine Production

The Conservation of Mangrove through Rice Hull Fed Wine Distillery - Nipa Wine Production is a two-year collaborative project of DENR and LGU Infanta. The project will be implemented with the partner People's Organizations: (1) Barangay Abiawin Farmers Association (BAFA); (2) Alitas Farmer Association (AFA); and (3) Binonoan Farmers and Fisherfolks Association (BFFA).

At the end of the project, it is envisioned to sustain mangrove conservation efforts while helping coastal communities to improve their economic activities by enhancing technologies on distillery for the local popular product of Infanta known as "Lambanog" or Nipa Wine.

OBJECTIVES

The project aims to reduce cutting of mangrove timber for use as fuel in three (3) wine distilleries and increase awareness of the local community on the importance of mangrove forest.

COMPONENTS

1. Project mobilization and start-up
2. Set-up of rice hull fed wine distillery facility
3. Capacity building
4. Project management and supervision
5. Community volunteer activities
